

System "Dry adhesive bonding"

For the fast laying of vinyl design flooring (LVT)

Brief description:

Laying floorings with dry adhesives means fast renovation, completely without machines, dust, noise and drying time. This makes this system the first choice when design flooring needs to be laid quickly and in a way that it can be removed. Thanks to immediate accessibility and load-bearing capacity, floor coverings can also be changed easily and reliably even during ongoing operations.

System benefits:

- Fast and dust-free
- Can be removed without leaving any residues
- Can be walked on and loaded immediately

Worksteps	Products
Bonding agent	1 R 766 Multi-purpose primer for absorbent and impervious substrates
Floor leveler	2 XXL XPRESS Rapid leveling compound for leveling up to 20 mm in one single application
Bonding agent	3 R 766 Multi-purpose primer for absorbent and impervious substrates (Also as a bonding agent before direct bonding of floor coverings)
Flooring adhesive DRYTACK dry adhesive	4 DT 100 Quick-Lift® Adhesive membrane for residue-free removal of textile, PVC, CV and rubber flooring
