

System "Renovation of floor structures in contact with soil"

The easy way to lay a new PVC floor on moist substrates in contact with the soil

Brief description:

With this system and the perfectly harmonized THOMSIT products, you can maintain the value of the floor even on difficult substrates.

System benefits:

- Time saving and cost saving
- Moisture-resistant
- Sustainable and resource-conserving
- Very low emissions

Worksteps	Products
Miscellaneous Sheet membrane	1 TF 201 THOMSIT-FLOOR® sheet membrane dimensionally stable separation layer for difficult substrates
Flooring adhesive	2 K 188 E Special adhesive Extra for bonding PVC, CV, PVC-free and rubber flooring
Miscellaneous Ventilated skirting board	3 Note: When installing skirting boards or cover strips, you must use systems that allow adequate ventilation behind the strips (e.g. ventilated skirting boards).
